## QUESTIONS

## ANSWERS

### WELLNESS CHECK

Screening of children upon arrival :

1. Make a visual inspection of the child for signs of illness which could include flushed cheeks, rapid breathing or difficulty breathing (without recent physical activity), fatigue, or extreme fussiness.
2. Perform Hand Hygiene - wash your hands or use sanitizer.
3. Put on disposal gloves and check the temperature of the child

A child who has a fever of 100.4 or above or other signs of illness should not be admitted to the Center.

Note:

- Encourage parents to be on the alert for signs of illness in their children and to keep them home when they are sick.
- Please maintain 6 feet from others while undertaking screening.
- Remember to supervise young children when they use hand sanitizer to prevent swallowing alcohol.

**Q1.** Wellness Check

List 1	
Name of the person attending	
Are you and all members of your household well ? (If No record in Comments)	
Have you or anyone in you household been exposed to someone with is or may be suspected as having Covid19 ?
